Quite a walk still from this stop, so care needed.

The Approach:

*This is the turn from the main road. The code for the key pad is **7946** *

You will need to enter the code on exit also.

About 500m from the gate you will see this sign board turn left here, drive to the end turn right and park in the courtyard.

Changing:

You can change at your vehicle, or you can take belongings to water to change afterwards or change in the toilets, the gun room will be open you can change in there also, please bring your own hot drinks. Tow floats will be available if required as well as supervision & bank safety provision during your swim.

The Lake:

Is beautiful and set in rural Fylde location. It is only chest depth for the most part.

Looking at the picture to the left gets very shallow if you swim too close to the bank, the far right is slightly deeper. The owners have water tested the lake, it is safe to swim in, the floor is peaty, they have the occasional guest fishermen but there will be no whilst we are swimming, we will have sole use. Please be mindful that this is still a working farm and we ask that you don't bring dogs on site, we thank you for your understanding.

After the swim:

There will be a log burner (Winter only) to greet you in the gun room next to the toilets.

Many of the swimmers on a Monday have started visiting 'Woody's Café' at the - Koi Pool Water Gardens, 35 Mains Ln, Little Singleton, Poulton-le-Fylde FY6 7LJ. So this is an option if your wanting food and a chat afterwards.
